**Christians For Cannabis (ORG) Myths, half truths and deception pollute the dismal landscape of the war on drugs.** For a century, truth has been ignored and concealed.

"There is nothing concealed that will not be disclosed, or hidden that will not be made known."

-Jesus, Matthew 10:26

Today, we must abolish past prejudices of the reefer madness era. Factual information has been brought to light thanks to the tireless efforts of groups like NORML , Media Awareness Project, Drug Policy Alliance and Common Sense for Drug Policy and other major reform organizations.

"These are the things you are to do: Speak the truth to each other, and render true and sound judgment in your courts; do not plot evil against your neighbor, and do not love to swear falsely. I hate all this," declares the LORD.

-Zechariah 8:16-17

As Christians, we need to be sure that we are making socially responsible decisions based on true justice concerning drug policy. It is our hope that by providing a solid base of factual information, that there will no longer be a 'lack of knowledge' on this issue, and that the Christian community will promote drug policies based on science and compassion, rather than apathy, fear, hate and ignorance. **A hemp museum - London, England, museum dedicated to hemp** (Article) **A museum dedicated to hemp**, opens from National Review in News ... Hemp is also known as Cannabis sativa, a name it received, ... THE streets of London, they used to say, were paved with gold. Maybe that is true of the City, the British capital's financial district, but take a walk five minutes to the east, to Shoreditch, and the surroundings are more mundane. Here you will find a theme park of pre-Thatcher Britain. The pub at the end of Redchurch Street is no exception. A drab spot despite its exotic dancer, the White Horse sports a cautious sign noting that Shakespeare is reputed to have drunk there. But if the White Horse is timelessly East End, the East End is itself changing. Not so long ago Redchurch Street was part of that old stereotypical London of the Ealing comedies and the kindly bobby. Now it is also home to a mosque, a Bengali grocery store, and, most recently, a cannabis museum." **Medical cannabis; From Wikipedia, the free encyclopedia** (Info) **Medical cannabis refers to the use of the drug Cannabis as a physician recommended herbal therapy**, most notably as an antiemetic.

The term medical marijuana post-dates the U.S. Marijuana Tax Act of 1937, the effect of which made cannabis prescriptions illegal in the United States. Due to widespread illegal use of cannabis as a recreational drug its legal or licensed use in medicine is now a controversial issue in most countries. There are many studies regarding the use of cannabis in a medicinal context. Visit: [http://en.wikipedia.org/wiki/Medical\\_marijuana](http://en.wikipedia.org/wiki/Medical_marijuana)

**Legalisation: The First 100 Years By Mike Jay (Info, History) What happened when drugs were legal, and why they were prohibited.** Today, as the notion of legalising drugs is making its way into the mainstream political agenda for the first time in living memory, one of the most common objections to it is that it represents a high-risk experiment whose outcome cannot be accurately modelled or predicted. Yet within the context of history, the opposite is true: it is the prohibition of drugs which is the bold experiment without precedent. **THE REEFER MADNESS ERA, REEFER MADNESS BOOKS (Info, History) By definition, it would be a contradiction in terms to list or classify a Reefer Madness book as a work of "Non-Fiction."** Thus both genres are group together here simply as "Hard Cover" books; if only to distinguish them from the "Pulp Fiction" or "Dime Store novels" discussed elsewhere. However where appropriate the terms [Fiction] and [Non-Fiction] are used.
