With the Hinchey/Rohrabacher vote possible on Tuesday afternoon, this rally is a wonderful opportunity to educate about this amendment and get folks to contact their federal legislators to express their feelings. At least it is a step in the right direction.

Since we have the media's attention I believe we should refer to the statement of Justice John Paul Stevens, who wrote the 6-3 decision, saying that Congress could change the law to allow medical use of marijuana. Now WE need to say that they SHOULD change the laws, starting with this amendment.
