## **HELP! People Needing Medical Cannabis Across America**

**This is a chain letter you can't refuse. Unlike most, this will actually help you - and a whole buncha others - just by passing it on.**

**There are a number of medical cannabis (marijuana) bills in play in states across the US. We need to get the word out and people contacting reps and officials and get this legislation into law.**

**To accomplish this you need to enter the following links into your browser and send a message to all the reps and media you can on the issue. Then get everybody else to do the same.**

**To do this you need to tell everybody you know. And can confide in.**

**Then/or anonymously tell everybody you don't know - or can't confide in. Yet.**

**Tell everybody you can by forwarding this letter and printing off and handing out where necessary. Also phone call and visit. Take literature with you and approach businesses, organizations and even people on the street while you're out and about. Wear your pot-leaf shirt and register voters, as feasible.**

**Organize an event or action item to attract people in order to inform, educate and activate. Don't forget to alert the media!**

**Tell everybody else by Letters-to-the-Editor, displaying signage at street corners and over-passes (wear trenchcoat, fedora and sunglasses if afraid of exposure), and/or anonymously leaving literature and posting on-line at places where people are likely to find it. Coffeeshops are good places to leave printed material and you can go to the websites of the local newspapers to post items as well. More ideas and supporting tools via the links below.**

**And we're sure you'll come up with more. Post them at the websites provided.**
